

**Weathering Future Storms Conference**

June 25, 2008

The “Weathering Future Storms” conference will be held September 8-10, 2008 in Mobile, Alabama. This conference is sponsored by the Alabama Cooperative Extension System, Auburn University, and the U.S. Forest Service. It will provide information about how to prepare and respond to storm events in urban forest settings. Subject matter will include: tree selection; design and planting for storms; storm pruning; chainsaw safety; invasive species; casualty loss estimation; and tree assessments. Registration and lodging information are yet to be announced. For further details, contact Beau Brodbeck, Extension Specialist: Urban & Community Forestry at (251) 937-7176 or [BRODBAM@aces.edu](mailto:BRODBAM@aces.edu).
