

Forestry & Natural Resources Webinar Series

March 17, 2009

Presented by Brett Butler, Research Forester  
Northeastern Research Station, USDA Forest Service

This special one-hour program will discuss forest ownership patterns of the United States with an emphasis on family forest owners. Dr. Butler will use results from the most recent National Woodland Owner Survey to look at who family forest owners are, why they own their land, how they have used it, and how they intend to use it.

One hour of SAF CFE Category I credits have been applied for

March 26, 2009 12:00 PM ET to 1:00 PM ET
