Assessing Wildfire Hazards in the Home Ignition Zone

The National Fire Protection Association will present four two-day seminars on “Assessing Wildfire Hazards in the Home Ignition Zone” later this year. The seminars will focus on applying new knowledge and approaches to identifying and reducing fire hazards in the wildland-urban interface. Attendees will receive copies of *NFPA 1141: Standard for Fire Protection Infrastructure for Land Development in Suburban and Rural Areas*, 2008 Edition, and *NFPA 1144: Standard for Reducing Structure Ignition Hazards from Wildland Fire*, 2008 Edition.

Locations and dates include:

Denver, CO	October 25-26, 2010
Seattle, WA	November 8-9, 2010
Anaheim, CA	December 6-7, 2010
Orlando, FL	December 13-14, 2010

These seminars also provide an opportunity to earn 1.4 continuing education credits.
