Partners in Community Forestry National Conference

Portland, Oregon November 9-11, 2009

The Arbor Day Foundation and The Home Depot Foundation will host its 3rd annual Partners in Community Forestry National Conference, which provides the most current information and best practices in urban forest management and tree-planting programs, as well as partnerships and collaboration with others that support community trees. This conference will focus on community tree management, trees and development, and the benefits of trees to community health, with special consideration given to engaging new and diverse constituencies in the management of community trees. The conference will be held from November 9th through Nov 11th at the Doubletree Hotel in Portland, Oregon.
